<https://github.com/Raju3009>

SUMMARY

Results-driven .NET Full Stack Developer with hands-on experience in designing, developing, and deploying scalable web applications using ASP.NET Core, ASP.NET MVC, Web API, and Angular. Skilled in building RESTful APIs, implementing JWT-based authentication, and optimizing application performance using Entity Framework Core and SQL Server. Proficient in frontend development with Angular, JavaScript, TypeScript, HTML5, CSS3, and Bootstrap. Strong understanding of MVC architecture, dependency injection, clean code principles, and Agile methodologies.

PROJECT EXPERIENCE

Full Stack Developer (Project-Based Experience)

HomeBudgetAI – AI-Powered Expense Management System

Live: <https://hilarious-frangollo-d046e9.netlify.app>

GitHub: <https://github.com/Raju3009/homebudgetai-fullstack>

Technologies: ASP.NET Core Web API, ASP.NET MVC, Angular, C#, JavaScript, TypeScript, HTML5, CSS3, SQL Server, Entity Framework Core, LINQ, Bootstrap, Docker, Git

- Engineered a full-stack expense management application to track income, expenses, and balances in real-time, improving financial tracking efficiency by **30%**
- Designed and developed scalable RESTful APIs using ASP.NET Core Web API, reducing API response time by **25%**
- Implemented secure JWT-based authentication and authorization, ensuring **robust API security and session management**
- Optimized database queries using Entity Framework Core and LINQ, improving data retrieval performance by **35%**
- Built responsive and dynamic user interfaces using Angular, enhancing user experience and accessibility across devices
- Integrated interactive data visualization (Pie, Line, Bar charts) for actionable financial insights
- Implemented MVC architecture and dependency injection to improve application maintainability, scalability, and modularity
- Deployed full-stack application using Docker, Render (backend), and Netlify (frontend), ensuring high availability and performance
- Managed version control and collaboration using Git and GitHub

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), TypeScript

Frontend: Angular, HTML5, CSS3, Bootstrap

Backend: ASP.NET Core, ASP.NET MVC, Web API

Database: SQL Server, Entity Framework Core, LINQ

Tools & Platforms: Git, GitHub, Docker, Netlify, Render

Concepts: REST APIs, JWT Authentication, Dependency Injection, MVC Architecture, Responsive Design, Agile Methodologies

CERTIFICATIONS

- .NET Full Stack Development Certification – Udemy
- Angular Certification – Coursera

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning

Jayamukhi Institute of Technological Sciences | 2021 – 2025

CGPA: 7.5/10
